The unfoldment of the treatment plan

Advanced course in Craniosacral Biodynamics for CSB practitioners

May 24 – 28, 2016

This advanced course is dedicated to study the treatment plan according to the biodynamic principles. The unfoldment of a session in the biodynamic practice needs to be guided by a specific understanding of health and normal. That allows the practitioner to reach closer to the cause of the issue rather than orienting and responding to symptoms. Drawing from their experience of 30 years, Kavi and Bhadrena will bring their understanding to the craniosacral practice, for the benefit of practitioners and clients alike.

Contents :

- Developing an understanding of Health
- Orientation to Health as diagnostic tool
- Recognizing biodynamic forces in action
- Ordering principles, theory and palpation
- Working on different levels of manifestation
- Follow the will of Primary Respiration
- The field of emergence of the treatment plan
- Orientation to cause
- Study of clinical case histories

The following therapeutic craniosacral skills will be enhanced and developed during this course:

- Perceptual skills
- Ability to synchronize with the Tide
- Support metabolic and physiological processes
- Increase in clinical therapeutic effectiveness
- Maintenance, support and improvement of the state of health of the client
- Accuracy in following the unfoldment of a treatment
- Love and compassion in the therapeutic setting

***Prerequisite: Completion of a foundation training in craniosacral Biodynamics.
The course will be given in English (with French translation).***
